Osculation is unquestionably a pleas

ng pursuit. It has been recognized as such from time immemorial, by ages un-numbered of lovers, poets, and even philosophers. There are, doubtless, at the present moment, in this as in other countries, many enamored swains who ask no better than to be permitted to imprint "ten thousandkisses," one after another, upon the lips of the damsels on i whom they have bestowed their affec-tions. They may, how ver, esteem themselves fortunate if their opportunities in this direction are somewhat limited, as the billowing true story will show: At an evening party in Kelkheim, a few weeks ago, the conversation happened to turn upon kissing, and the question arose turn upon kissing, and the question crose sent a man to jail for using "obscure" language.
